Certificate

awarded to

Barry Arona

Having successfully completed advanced training in

Excel For Data Analysis

During this training, the learner acquired advanced proficiency in Excel, particularly in the use of Power Query, Power Pivot, PivotTables, and the creation of interactive dashboards.
They demonstrated their ability to clean, transform, analyze, and visualize data professionally. Through practical exercises and a final project, the learner is now able to leverage the power of data to deliver strategic insights and design high-impact analytical solutions for businesses..
